

Manchester Health Information and Resources Library

The Health Information and Resources Library provides a professional library information and resource service to Manchester Mental Health and Social Care Trust staff, NHS community health care staff in Manchester, and health promoters in Manchester.

Library services

We support your evidence-based practice by providing access to information, and have the resources to support your health promotion work.

- Books, reports, journals and multimedia resources
- Health promotion models and teaching resources
- Enquiry service
- Literature searching service
- Training on searching the Healthcare Databases
- Current awareness: email bulletins of new information
- Electronic resources, available through NHS Athens
- Access to documents through our inter-library loan service
- Leaflets and posters on a range of health promotion topics
